

Rockfields
SENIOR SCHOOL

KAJIADO · KENYA

BOYS BOARDING · GRADE 7 TO GRADE 12

A day at *Rockfields.*

From the first bell to lights out — one day in
the life of a Rockfields boy.

NOW ADMITTING · GRADES 7-12

WELCOME TO ROCKFIELDS

Space to grow *into a man.*

At Rockfields we believe boys flourish when they are given space. A boy who joins us in Grade 7 can stay until Grade 12, growing up among the same teachers, friends and fields.

To think.

Laboratories, computing and classes of 30, where every boy is known and asked to reason for himself.

To play.

Forty acres of open grounds and more than fifteen sports, every afternoon of the week.

To serve.

Cadets, clubs and societies that teach boys to show up for others.

To lead.

A boarding life that builds independence, responsibility and brotherhood.

Soaring to Greatness.

THE ROCKFIELDS MOTTO

This booklet follows one school day, from the first bell to lights out. But no booklet replaces a visit: our gate is open.

From the first bell *to lights out.*

HOW TO JOIN
p.23

Expansive, quiet, *an hour from Nairobi.*

— and equipped like nowhere near it. Junior Secondary and Senior School share one campus, so a boy who arrives in Grade 7 can stay with us until he leaves in Grade 12.

This booklet follows a single school day. It begins, as every visit does, on the long tree-lined path from the gate — and ends after supper, back in the residences. Along the way you'll see the rooms, labs, fields and people that make the day work.

*Wide lawns, open skies and
room for every boy to grow.*

CHAPTER ONE · THE CAMPUS

Six years,
one campus.

Open grass, clear skies and the hills on the horizon. Teaching blocks, laboratories, a resource centre, dining hall, residences, pitches and a pool — all within a short walk of one another.

7–9

JUNIOR SECONDARY

Grades 7, 8 and 9. A settled start to boarding life, with the full facilities of the senior school from the very first term.

10–12

SENIOR SCHOOL

Grades 10, 11 and 12. Rockfields is a triple-pathway school, so every boy can follow the CBC pathway that suits him — with the same teachers and grounds he already knows.

ALL THREE CBC PATHWAYS

STEM

All four tracks: Pure Sciences, Applied Sciences, Technology & Engineering, and Career & Technical Studies.

Arts & Sports Science

Performing Arts, Visual Arts and Sports — an area where our boys excel.

Social Sciences

Languages & Literature, including French, and the full range of humanities.

ALSO OFFERED

Specialist subjects, taught hands-on

07:30

Hands up, *minds open.*

Bright classrooms, small enough for every boy to be noticed. Teachers move between desks rather than standing at the front — questions are expected, and answered.

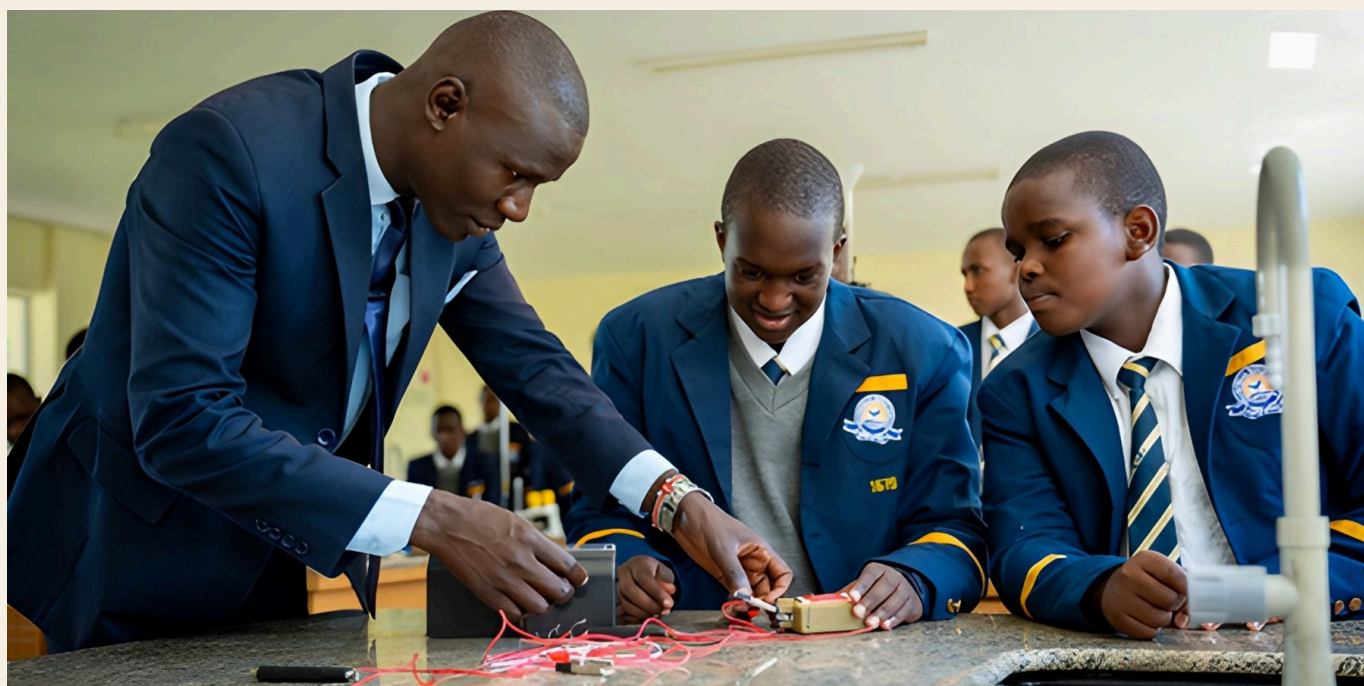

*Learning here is a
conversation, not a lecture.*

10:00

Science you can *hold in your hands.*

Granite benches, running water at every station and equipment for each pair of students. Physics, chemistry and biology are taught by doing — wiring circuits, running titrations, looking down the microscope.

Physics

Circuits, optics and
measurement

Chemistry

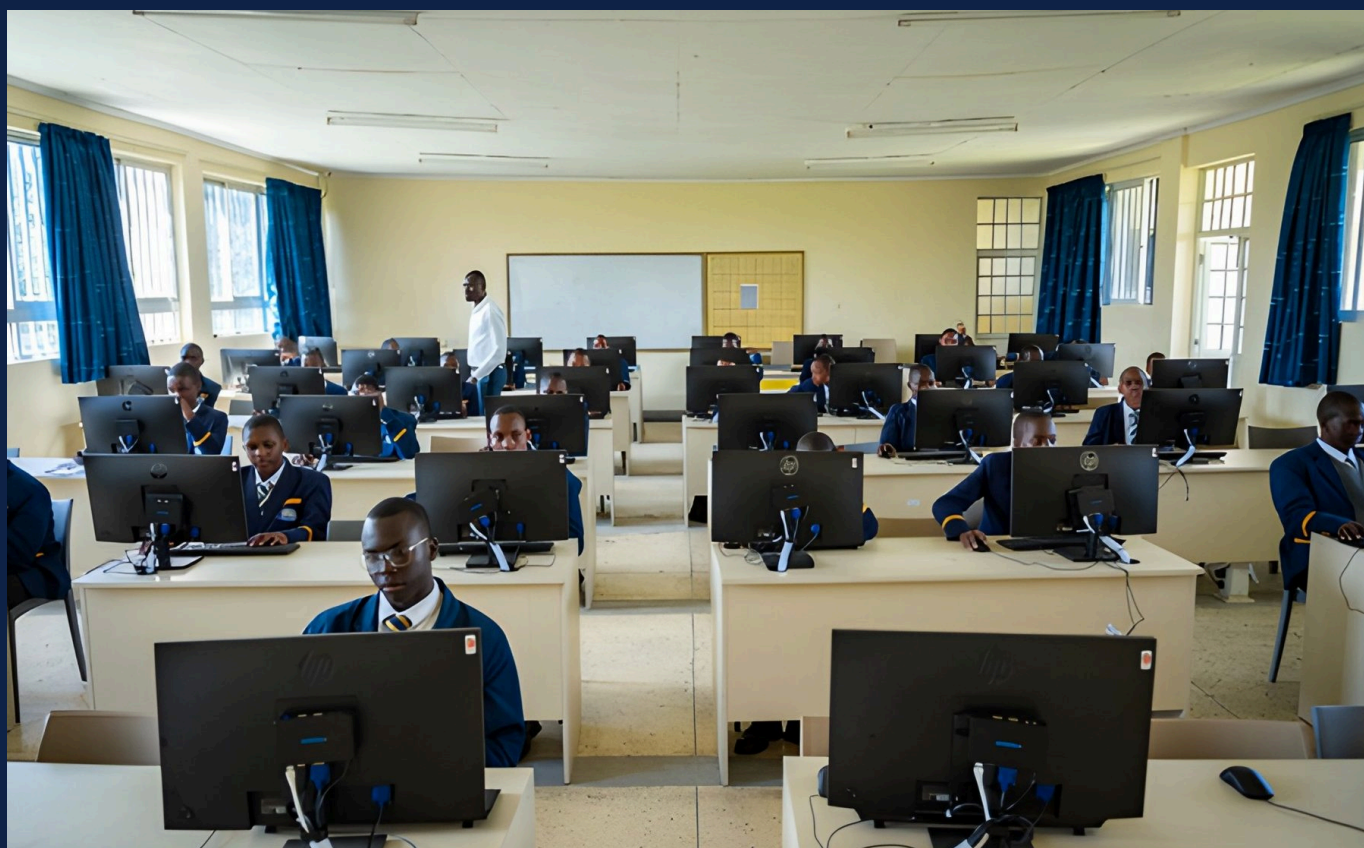

Titration and practical analysis

Biology

Microscopy and specimen work

11:30

A screen for
every student.

Rows of networked workstations, one per boy — digital skills are part of the timetable, not an extra.

THE RESOURCE CENTRE

After the morning's lessons, the quiet of the Resource Centre – for reading, research and prep.

CHAPTER FIVE · THE DINING HALL

13:00

Lunch under
one great roof.

The whole school eats together in a light-filled hall. Meals are cooked fresh on site every day — chapati rolled by hand, rice and beans served steaming from the counter.

16:00

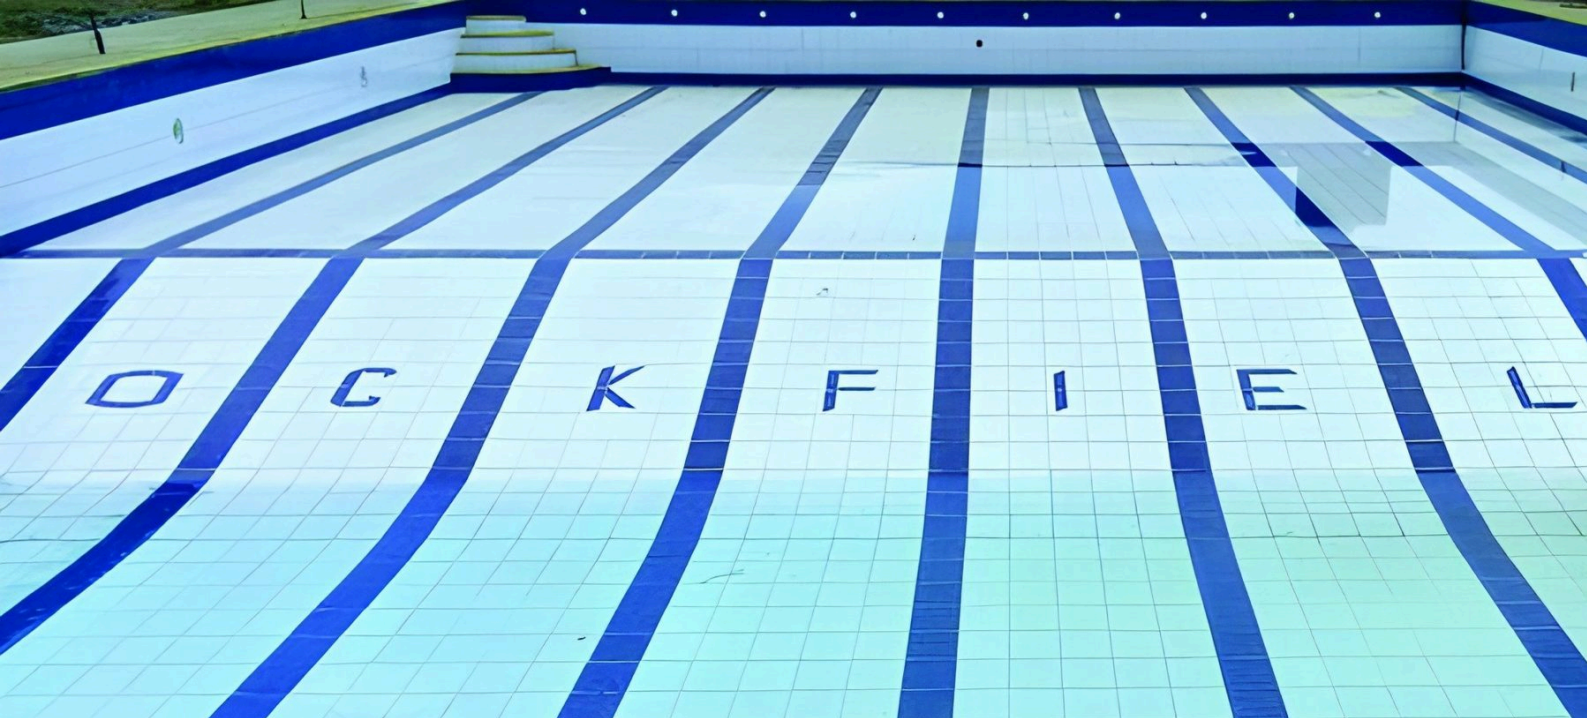

Then, the
fields.

LEARNING FROM CHAMPIONS

Partnerships with our national sporting heroes help us lay a foundation early — spotting talent in a boy's first years and giving him the coaching, example and encouragement to develop it.

Kenyan sprint champion Ferdinand Omanyala with the Rockfields squad.

Afternoons belong to sport, with the open land of Kajiado all around. Boys pick up a ball, a racket or a chessboard, or head for the pool — and if a boy has another sport in mind, we'll help him find a way to play it.

Football	All-weather pitch
Swimming	Lane pool
Basketball	Outdoor court
Lawn tennis	Singles and doubles
Badminton	Singles and doubles
Chess	Strategy and focus
And more	Just ask

17:30

A club for *every interest.*

Before supper, the lawns, labs and fields fill with clubs and societies. Boys learn first aid and drill with the St John Ambulance cadets, grow crops in the greenhouses with the Young Farmers Club, and choose from more than 10 clubs and societies — each one building the kind of confidence that stays with them long after school.

Young Farmers

Crops, greenhouses and the land

St John Ambulance

First aid, drill and service

And many more

Clubs for every interest

20:00

Back to *the residences.*

Evening prep, a call home, and the walk back across the lawns. The residences — named for Kenya's great landmarks — sit around shared gardens and an open-air amphitheatre, with solar-heated water on every roof.

BOARDING & CARE

A home *from home.*

Boarding is where boys grow fastest — in independence, friendship and responsibility. It is also where parents need the most reassurance. Here is how we look after your son.

Residences	Named for Kenya's great landmarks, set around shared gardens
Staff on site	All our staff live on campus, so help is always close at hand
Health	A fully equipped dispensary, with a resident nurse who also lives on site
Meals	Cooked fresh on site, every day

Day or night, someone is always close by.

FINDING US

- 1 From Kiserian town, turn left off Magadi Road onto Pipeline Road.
- 2 Drive on until you reach the statue of an African man blowing a horn — you'll also see our signboard.
- 3 Turn left onto the rough road. Rockfields is about 15 minutes along it.

EPILOGUE · HOW TO JOIN

Spend a day *with us.*

01

ENQUIRE

Call, WhatsApp or email our admissions team. We admit boys into every grade, 7 to 12.

02

VISIT

Come any day — no appointment needed. Walk the grounds and meet our teachers.

03

ASSESS

Details of the entry assessment are shared when you arrive.

04

ENROL

Our admissions team guides you through the forms and next steps.
